Wayne Oil Field.

James Salle returned from the oil fields of Wayne county this morning, and reports some disastrous happenings there. John Doss, while celebrating over the election last night, suffered a huge cannon fire-cracker to explode in his hand. His nose and the flesh of his face were blown off and his eyes were blown out of their sockets and fell to the ground. He will die.

Mrs. Arthur Messingall and Mrs. Guffy are dead from burns received from an oil can exploding Sunday, and Mr. Messingall is dying. Robert Guffy, who was in bed suffering from a broken leg, was alarmed by the explosion, jumped out of bed and broke the other leg.

A 150-barrel oil well on the Carder farm came in yesterday.—Louisville Times.

Political bias, political prejudice, has prompted many a good man to besmear his conscience.

The fondest expectations are often banished by the cold wind of disappointment.

Wedding Bells.

WESLEY-KING: Jason Wesley, our efficient Circuit Clerk, and Miss Lou King, the only single daughter of Mr. G. W. King, were married last Wednesday evening, the 1st, in the Court House. The wedding was a surprise at that date as a later date was suspected. The wedding was a quiet affair, only a few select friends being present. Eld. W. G. Montgomery performed the marriage ceremony.

Thursday morning they left for Lexington for a short bridal trip, returning Sunday.

Both are prominent in social circles and have a host of friends who wish them well. This paper extends best wishes for a happy married life.—Casey News.

A Paris Girl's Success.

[The] much talked of Institute of Musical Art was opened to the public last month. We note from the New York papers that it has been placed on a solid financial basis by the Betty Loeb endowment fund of \$300,000. Among the faculty are such men as Alvin Schroeder and Frank Knessel. Dr. Frank DaMrosch, the director, is widely known in musical circles. It is a matter of much gratification to Parisians that Miss Nell Dohoney, of this place, is one of the teachers in this magnificent new institute. She has been studying under the noted Mr. Lemberty of New York and he has done much to further her interests. Her unusual gifts and her splendid energy have won great success for one so young. Paris is very proud of her brilliant representative in New York.

The above is taken from a Paris. Texas, paper, which speaks of the success and attainments of a young lady, Miss Nell Dohoney, whose parents were reared in this county and whose many relatives and friends will feel proud of her brilliant future.

Art Notes.

All we know of ancient civilization comes to us through the remains of the arts of the people. The arts of any nation has ever been an index to its culture and progress.

Read below what one of our great educators says on the present situation in our own country.

"The best place to inculcate the love of the beautiful is the schoolroom. To the rising generation the most effective lessons can be given, and from the school millions of children will carry the lessons to millions of homes. After reading, spelling, writing and ciphering with small numbers and in simple operations, drawing should be the most important common-school subject. All children should learn how lines straight and curved and lights and shades form pictures and may be made to express symmetry and beauty. All children should acquire, by use of pencil and brush, power of observation and exactness in copying, and should learn through their own work what the elements of beauty are. It is monstrous that the common school should give much time to compound numbers, bank discount and stenography, and little time to drawing. It is monstrous that the school which prepares for college should give four or five hours a week for two years to Greek, and no time at all to drawing. The main object in every school should be, not to provide the children with means of earning a livelihood, but to show them how to live a happy and worthy life, inspired by ideals which exalt and dignify both labor and leisure. To see beauty and to love it is to possess large securities for such a life."—Pres. Elliot, of Howard University.

A meeting of the old fiddlers and a contest for honors in the making of long-time-ago music was held in style in the Combest Hotel, Dunnville, last Saturday evening. There were 12 or 15 fiddlers while the visitors numbered over 100. A splendid supper was served and every one enjoyed it in no small degree. The music consisted of old time pieces, perfectly rendered, and made all present forget the worries of the present while the thoughts sped rapidly back to years long since gone and for a short time to live over their early years. Mr. E. T. Robertson, of this city, attended and reported a fine time.

has been handling the weed for many years.

Dr. W. L. Turk, of Gallion, Ala., has been visiting his mother and sister at this place. He informed your reporter that business was good in the South and that he was glad to know that old Adair was advancing to the front. He will leave in a few days for his home and his mother will accompany him and remain during the winter months.

Born, to the wife of Dr. L. C. Nell on the 9th, a 12 lb boy. Mother and child doing well.

Mr. L. C. Hindman sold his farm last week to Mr. Willis, of Metcalfe county, for \$2000.00. Mr. Hindman does not know where he will locate, but will make a prospective trip to the Lone Star State in a few weeks. He is one of our best citizens and we regret to lose him.

Mr. J. D. Walker, of Columbia, was in our town Thursday and while here he sold a house and lot known as the Geo. Yates property, to Mr. Geo. Flowers, Sr., and Mrs. Cetla Nell, for \$1000.00. This is one of the best pieces of property in this town.

While in conversation with Mr. W. M. Smith a few days ago, he informed your reporter that while repairing his dwelling a few weeks ago, he found three hen eggs that had been deposited there fifty-three years ago. From the appearance of the eggs, they were in sound condition. We must say here in behalf of his daughter, Miss Mattie, that she has 80 of the nicest thoroughbred bronze turkeys for sale that were ever in this community. This lot of turkeys is certainly a beautiful sight. Just call and see for yourself.

We understand that, on the day of the election, there was trouble at the Keltner voting precinct between the Coffey and Rogers faction. We have not learned the particulars but understand it was an old grudge existing between the parties.

The election is now a thing of the past and the Democrats in this section are very well pleased with the returns, knowing that we have reduced the majority over half in this county, with only two short weeks of work spent. We certainly feel encouraged and in four years hence we will be "Johnnie on the spot and will give you the best we have in our shop." Success to the new officers for this term may be your last.

To the Democrats of Adair County.

The glorious battle waged by you on the 8th, is enough to cover you with imperishable renown. In the face of a majority of over three hundred votes for the Republican party, you fought with such zeal for sound principles, that a gain of over two hundred votes was made. Their organ, whether by the loss of sanctification or affected by imbecility made many false statements concerning the Democratic candidates.

But old Adair, will come to the front with a Democratic majority in a very short time. On your armor for the test and be assured awaits you. We the run. I the very large v

Happiness misery the doing.
